

With a long lifespan and good heat dissipation, LED lights surround the entire cylinder shape and bottom portion. The “instant-on” high output LED fixture brings energy efficiency to applications once reserved for metal halide fixtures.

The sealed fixture is IP64 rated and is perfect for gymnasiums, warehouses, large facilities, and more. Suitable for indoor and outdoor applications. The Corn Cob LED Lamp provides 360° of energy efficient illumination.

PRODUCT DETAILS

Intended Use

Corn Cob LED Fixtures are ideal for 400W MH replacements for both indoor and outdoor applications. Can be used in fully sealed fixtures.

Construction & Materials

High quality aircraft aluminum rail. Incorporated heat sink technology greatly increases fixture life. IP64 Rated.

Optical System

Optimally spaced LED arrays provide even light distribution.

Electrical System

100-277VAC

Installation

Quick and easy installation into E40/E39 base.
